

Laura Rodriguez

My approach to counseling involves active participation by my clients. Collaborating with my clients to make positive changes in their lives is my passion. There are very few places on earth where someone can discuss their concerns in an environment that provides zero judgment, unconditional positive regard, empathy and confidentiality. I don't take that responsibility lightly. Together we can work towards your therapeutic goals.

Hola, yo hablo espanol. Si necesitan servicio en espanol you estoy aqui para servirle.
